Education:

Manufacturing Technology Academy (2011-2012)

- Classes:
Honors Chemistry, Honors Trigonometry/Pre-Calculus, Manufactory Technology 1, English 11, Honors Physics, Honors Calculus, Honors Economics, English 12, Manufactory Technology 2
- Technical Skills:
Automated Material Handling
Quality Assurance
Solid Works
- PASSES Edge Safety Training (2011) – This workplace safety awareness training for students covers the safe use of maintenance chemicals, proper lifting techniques and ladder safety, machinery operation and labor laws.
- Teams Training Program (2011) - I completed a two day seminar, four hours a day, learning about the (plan do study act) approach to solving a problem. I then was sent to a company with a group of fellow classmates and we were asked to solve one of the company's problems. The problem with our company was fixing a bottleneck. We were there for three days on the third day we presented our findings to the people who worked at the company.
- Introduction to Engineering and graphics is a college class that I took online for one Semester. I was dual enrolled in FSU. This enhanced my technology skills and I now have the ability to read prints.
- FIRST- FIRST is a competition all about building a robot with a team of people. This increases your compatibility with other personalities. FIRST also strengthens your problem solving abilities. I had a fun time completing the FIRST robot with all of my teammates.
- NRC – Currently a team leader building a robot with 4 wheels and the ability to flip another robot which would then help us push another robot out of a ring.

Traverse City College Preparatory Academy (2011-2012)

- Academics:
Civics
Baseball Mathematics
Oceans and their Ecosystems
Humanities
Personal Fitness
